FOR IMMEDIATE RELEASE

Date Extended at Three-Mile Slough Bridge for Waterway Traffic Closure

Highway 160 Three-Mile Slough Bridge Paint Project

SACRAMENTO COUNTY – The maritime traffic restriction has been extended on the \$12.6 million paint project for the Three-Mile Slough Bridge on State Highway 160, the California Department of Transportation (Caltrans) announced today.

Maritime traffic can expect the Three-Mile Slough Bridge to remain in the down position through April 17, 2016. The bridge was originally scheduled to re-open for all boating traffic by April 10. A non-injury incident occurred when a water vessel collided with the work zone that delayed progress and forced the date change. The bridge was not damaged.

Motorists are reminded that one-way traffic control using signals with cameras remains in effect for north- and southbound traffic travelling on Highway 160 at the bridge. Expect significant delays during peak morning and afternoon commute hours.

For more information regarding maritime traffic and restrictions please contact the U.S. Coast Guard at www.uscg.mil/hq/cg5/cg551/Mission.asp

All work is weather permitting. For more information about this project go to www.3MileBridgeTraffic.com. Or follow Caltrans District 3 on social media at <https://twitter.com/CaltransDist3>
